

IN THE UNITED STATES BANKRUPTCY COURT
FOR THE DISTRICT OF NORTH DAKOTA

In re:)	Case No. 23-30352
)	(Chapter 11)
DRAIN SERVICES INC.)	
)	
Debtor.)	
_____)	

DEBTOR'S RESPONSES TO DISCOVERY
REQUESTS OF CHOICE FINANCIAL GROUP

Comes now Drain Services Inc. ("Drain Services" or the "Debtor"), by and through undersigned counsel, pursuant to Federal Rule of Bankruptcy Procedure 7033, Federal Rule of Bankruptcy Procedure 7034, Federal Rule of Civil Procedure 33, and Federal Rule of Civil Procedure 34, and in response to the interrogatories (the "Interrogatories," with each such item being an "Interrogatory") and document requests (the "Document Requests," with each such item being a "Document Request") of Choice Financial Group states as follows:

Interrogatory 1. Identify, by giving the name, title, address and telephone number(s) of each person who is completing this, or assisting in completing, the answers to these interrogatories.

Answer: These Interrogatories are being answered by Kevin Cameron, the Vice President of Drain Services, with the assistance of counsel. Mr. Cameron's address is 1131 Legion Lane W, West Fargo, ND 58078. Mr. Cameron's phone number is (701) 936-3365. Undersigned counsel's contact information is set forth in the signature block. (Drain Services does not object to identifying counsel as assisting in the preparation of these answers but would object to any inquiry into the nature or extent of such assistance; the answer of this Interrogatory should not be construed as a topical waiver of the attorney/client privilege or the attorney work product doctrine.)

Interrogatory 2. Identify and explain all pending insurance claims including information about the nature and basis for the claim, the insurance provider, the name and contact information for any adjuster, the name and contact information for any claims agent, and the date of an anticipate settlement of the claim.

Answer: An insurance claim was made for the theft of a 2016 Ford Transit Van, as disclosed in Drain Services' bankruptcy schedules. The insurer is American Family Insurance. The adjuster is Jeff Busselman, whose phone number is (608) 722-2220, whose e-mail is Jeff.Busselman@afics.com, whose fax number is (866) 935-2858, and whose mailing address is 6000 American Parkway, Madison, Wisconsin 53783. The claim has been assigned number 01-002-358055. The policy number is 33X1899110. The insured is Drain Services Inc. The date of loss is April 29, 2020. A date of settlement is not known, but the most recent communication from the adjuster came on July 24, 2023, asking for a call to discuss the claim. Drain Services reasonably believes the claim will be paid in the coming weeks or months.

Interrogatory 3. Identify and explain the business expenses pertaining to the project evaluations in Mankato and Woodbury, Minnesota, including who travelled on the trip, the times of any meetings with customers and who attended those meetings, and an itemized description for all of the charges incurred for the trip, including an itemization of all charges incurred at Great Wolf Lodge broken down my accommodations, meals, and entertainment.

Answer: There were two meetings in Minnesota for which I stayed at the Great Wolf Lodge with my family. One was a project in Mankato, which Drain Services secured through my meetings. I was the only Drain Services representative at the meeting. The work is expected to ultimately pay approximately \$40,000.00, of which \$10,000.00 has been collected already. It was believed the work would be less valuable (hence the \$10,000.00 upfront payment),

but there have already been two change orders, raising the price. The other project is a bakery in Woodbury owned by a family friend. The bakery is having issues with an aging sewer line. That work has not yet been officially secured, but I am confident it will be. My wife and two children joined me on the trip. I do not have an itemization of all expenses, or a receipt, but my recollection is that only the accommodation – and a few minor ancillary expenses – were charged to Drain Services, with other items being paid for by my wife and myself personally. I thought the cost of accommodation to be reasonable and thought it sensible to bring my family with me, since it would not increase the cost of accommodation while allowing us to enjoy some time together on an occasion when I would otherwise be away working.

Interrogatory 4. Identify for each job identified in any cash collateral budget filed in this action by the Debtor whether such income is from a job that was an existing account receivable on the Petition date ("AR") or work in progress ("WIP") on the Petition date, the date the work was completed for AR, the date the work was started or will be started for WIP, the date work was completed or is anticipated to be completed, date payment is expected, date and amount of any payments that have been received, and the name, address, and telephone number of the principal persons of contact for the contracted parties.

Answer: Drain Services does not have records for much of what is requested here and I do not have a precise recollection. However, we are producing project proposals (subject to Choice agreeing to not contact our customers) that set forth much of this information. As observed previously by Drain Services' counsel, the company does not distinguish between WIP and AR internally.

Interrogatory 5. Identify each charge on the Self Lender Account that has been made since the Petition Date, including the person making the charge, the item/service purchased, and the business purpose of the charge.

Answer: I do not have information sufficient to answer this Interrogatory. The account is frozen, on account of my personally being in bankruptcy, and I do not have any records from the account.

Document Request 1. Identify and attach to your responses to these requests for the production of documents a copy of all documents, electronically stored information and tangible things referenced in your answers to interrogatories

Response: Attached hereto, please find (i) the most recent correspondence concerning the insurance claim discussed above and (ii) proposals (subject to Choice's agreement to not contact the Debtor's clients).

Document Request 2. Identify and attach to your responses to these requests for the production of documents copies of all insurance documents relating to the pending insurance claim listed in your Schedules, and written communications related thereto, including copies of policies, claims, claim benefit explanations, letters, emails, declaration sheets, verification that Choice is listed as loss payee, copies of any equipment schedules, and checks.

Response: The Debtor does not keep fastidious records of insurance communications and, as such, much of this is outside the Debtor's possession, custody and control. However, the aforementioned correspondence is attached hereto.

Document Request 3. Identify and attach to your responses to these requests for the production of documents copies of all insurance documents related to policies currently in effect

or that you have used cash collateral to pay the premiums, including copies of policies, declaration sheets, verification that Choice is listed as loss payee, and copies of any equipment schedules.

Response: The Debtor's various insurance records are attached.

Document Request 4. Identify and attach for each job identified in any cash collateral budget filed in this action by the Debtor whether such income is from a job that was an existing account receivable on the Petition date ("AR") or work in progress ("WIP") on the Petition date any and all documents related to the job, including written contracts, bids, invoices, accounting entries, or like documents, and written correspondence concerning the job, including emails or text messages.

Objection: The Debtor objects to this Document Request to the extent it seeks information protected by the attorney/client privilege and/or the attorney work product doctrine. Specifically, "any and all documents related" to jobs would, taken literally, include correspondence with counsel about the jobs. Such correspondence is privileged and outside the purview of discovery.

Response: Subject to, and without waiving, the foregoing objection, the Debtor is producing job proposals (subject to Choice's agreement to not contact customers of the Debtor) which are the sole pertinent records in the Debtor's possession, custody and control aside from bank records that have already been produced either informally or through monthly operating reports.

Document Request 5. Identify and attach to your responses to these requests for the production of documents a fully itemized receipt from Great Wolf Lodge for charges indicated in the Debtor's bank ledger in November 2023.

Response: The Debtor does not have the subject receipt but is trying to locate a copy. If and when a copy is located, the same will be produced.

Document Request 6. Identify and attach to your responses to these requests for the production of documents all statements, account histories for the Self Lender account, and receipts for any Self Lender charge since the Petition Date.

Response: The Debtor does not have any responsive records, with access to the account having been frozen.

I declare (or certify, verify, or state) under penalty of perjury that the foregoing is true and correct.

Cc: Bittner, Tanner <TBITTNER@amfam.com>
Subject: AmFam Claim #01-002-358055

Kevin,

Tanner requested that I send out the theft packet again in regards to the theft that happened on 4/29/2020. This will need to be filled out entirely and returned back to us. I know that previously we had also requested an estimate/photos for the damaged equipment in the van – we would still need that as well to accurately figure out repairs for you.

Best regards,

Marissa Larson

REGARDING CLAIM FOR DRAIN SERVICES INC FROM LOSS DATE APRIL 29, 2020

Important request regarding your claim

Please complete, sign, and return the enclosed document

Claim number	Date of loss	Policy number	Policyholder
01-002-358055	4/29/2020	33X1899110	Drain Services Inc

We are committed to providing you exceptional claims service.

In order for us to process your claim we are asking you to complete the enclosed document(s). Please sign each document, and return it in the envelope provided within 7 days of receipt of this letter.

- **Statement of Vehicle Theft:** Please make sure to answer all questions on both sides of this form.
- **Non-Permissive Use Affidavit - Total Theft Auto:** Please sign this Affidavit in the presence of a notary public.
- **Photograph of Vehicle:** Please send a recent photograph, if available, of the vehicle and indicate the date the photograph was taken.
- **Insured Information Form:** Please complete relative information to the loss that occurred as this information is needed to investigate your claim.

It's very important that all named insureds sign the enclosed form(s). If you are married, your spouse must also sign each form.

Please note the following important items anyone presenting a theft claim must know:

- **All thefts must be promptly reported to the police.**
- If your vehicle is recovered, we will need to inspect and appraise any damages the vehicle sustained as a result of the loss before the vehicle is repaired or disposed.

DrainServices0004

As your claim representative, I am here to assist you with any questions you may have. Please use the contact information listed below to reach me. Thank you.

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

JOB Sanitary Sewer Reline

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	Inspection revealed fractured VCP (clay tile) pipe from plastic connection at main to cleanout in basement. Inspection also revealed defective cast iron pipe inside the house. Recommend sanitary sewer reline from main stack at back of house to connection at main under street.	INCLUDED	INCLUDED
SANITARY SEWER (INSIDE)	Jackhammer floor where sewer enters the basement near previous toilet connection. Remove concrete and stockpiled material. Connect new pit to existing trench. Replace defective cast iron and re-plumb from new pit to laundry area. Replace floor drain and laundry connections to main. Continue new main to stack at back of house and connect to upstairs bathroom. Jackhammer, material removal, pipe replacement, backfill, concrete replacement included. 40 FEET	\$200.00/LF	\$8,000.00
SANITARY SEWER (OUTSIDE)	Cure In Place Pipe (CIPP) from two-way cleanouts in boulevard to house. CIPP from two-way cleanouts in boulevard to connection at city main. CIPP is a trenchless sewer relining method that will reline the existing pipe rather than removing roads, sidewalks, landscaping, etc. 75 FEET	\$200.00/LF	\$15,000.00

JOB Sanitary Sewer Repairs
Site 1 – ROW
Site 2 – Private Lateral

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	<p>Inspection of sanitary sewer from cleanout in bedroom.</p> <p>Inspection has revealed that the connection to the sewer main in the ditch has been crushed. Backfill material and PVC shrapnel is causing minor "papering" blockages in the sewer lateral serving the home.</p> <p>Inspection has also revealed that the lateral is back-graded for approximately 25 FEET. The lateral was tested to have a negative grade of over ¼ -inch. The negative grade is causing the sewer to back up into the home. After disconnecting the defective sewer, it was revealed that the trench was also over-dug when the sewer was laid. This caused the need for the saturated sand to be removed and then replaced with sufficient dry material and pipe support.</p> <p>Recommend excavation of sanitary sewer main in ditch to expose connection to main --- install new connection.</p> <p>Recommend continued excavation towards and including existing cleanout in yard to eliminate back-graded pipe.</p>	INCLUDED	INCLUDED
EXCAVATION SITE 1 -- WYE	<p>Excavation of sanitary sewer main in ditch to expose main and mainline connection.</p> <p>Excavation, connection replacement, backfill, compaction, site restoration included.</p> <p>14 FEET DEEP</p>	\$1,000.00/VF	\$14,000.00
PERMITS	<p>The ROW where the sewer main traverses has multiple agencies that oversee it. While our initial proposal covered work within the City of Moorhead, it did not cover work in Clay County. Clay county has a utility easement that requires additional permitting that comes with erosion control, native vegetation restoration, and storm water management.</p> <p>Utility permit, BMP (straw wattles), native species restoration, storm water management included.</p> <p>MINIMUM CHARGE -- \$2,500.00</p>	\$2,500.00/EA	\$2,500.00

TRAFFIC CONTROL	Excessive traffic control is due to erratic motorists not obeying posted traffic ordinances. Traffic control engineering, devices, and monitoring included. 3 DAYS	\$2,200.00/DAY	\$6,600.00
DEWATERING	The sewer main lays below the water table in this area. This was not known until excavation was performed. The trench had to be consecutively dewatered for 2 days. This also removed a large amount of backfill material as the soil mixed with water and turned into a slurry that required hydro excavation (vacuum) to remove. Pumps, hydro excavation rig, hauling charges included. 16 HOURS	\$400.00/HR	\$6,400.00
MATERIAL	Backfill material to replace what was vacuumed out during dewatering process. Material and hauling charges included. 5 TONS	\$1,200.00/TN	\$6,000.00
EXCAVATION SITE 2 -- LATERAL	Excavation of sanitary sewer lateral from ditch to cleanout in yard to expose back-graded sewer lateral. Excavation, pipe removal, pipe replacement, backfill, compaction, site restoration included. 25 FEET	\$300.00/FT	\$7,500.00
TRAFFIC CONTROL	Excessive traffic control is due to erratic motorists not obeying posted traffic ordinances. Traffic control engineering, devices, and monitoring included. 3 DAYS	\$2,200.00/DAY	\$6,600.00
DEWATERING	Dewatering of sewer trench to remove saturated soil prior to backfill and pipe replacement. Hydro excavation rig, hauling charges included. 16 HOURS	\$400.00/HR	\$6,400.00
MATERIAL	Backfill material to replace what was vacuumed out during dewatering process. Material and hauling charges included. 5 TONS	\$1,200.00/TN	\$6,000.00
		SUBTOTAL	\$62,000.00
		BALANCE TO SPECIALS	\$62,000.00

JOB Sanitary Sewer Repair
PO 4152868

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	<p>Inspect sewer from cleanout in shop area. Camera made it to 127 FEET where it encountered a blockage. Blockage is being caused by cast iron fragments building up. Camera found a slipped rubber fernco fitting just past the outside cleanout. Camera encountered severely corroded cast iron from edge of building to within 5 FEET of inside cleanout. Recommend hydraulic flushing of debris found in line. Recommend Cure In Place Pipe (CIPP) point repair at slipped rubber fernco. Recommend CIPP liner to rehabilitate defective cast iron. CIPP is an epoxy pipe lining method that provides an alternative to jackhammering/excavating the defective cast iron pipe.</p> <p>UPDATE: After hydraulic flushing of debris in line additional defects appeared:</p> <ol style="list-style-type: none"> 1. Connection to main appears to be slipping/caving in on top at 137 FEET 2. Pipe & joint are out of round at 131 FEET 3. Hole in pipe at 118 FEET 4. Joint separation at 110 FEET <p>Our recommendation is to excavate at the main and replace the defective connection. From that pit, we will shoot liner upstream, ending at the cleanout inside. This approach will eliminate the need for any excavation inside OR CIPP point repair.</p>	INCLUDED	INCLUDED
CIPP	<p>CIPP liner from connection at main to cleanout inside.</p> <p>Pipe has been descaled, flushed, and is ready for liner installation. Includes excavation at main, CIPP liner, new connection to main, backfill, and site restoration.</p> <p>130 FEET</p>	\$300.00/FT	\$39,000.00
REINSTATEMENT	<p>Robotic reinstatement of any branch connections that are lined thru. After cleaning and descaling it was determined that just one reinstatement will need to be performed.</p> <p>PER EACH -- \$1,500.00</p>	\$1,500.00/EA	\$1,500.00

JOB Kiddie pool pipe repairs

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	Cleaning and pipe preparation began with pipe riser removal in pump room so our equipment can navigate easier with fewer bends. The 3" lines were vacuumed out as they were holding water during our preliminary inspections. During the post-vacuum inspection, the line connected to the main drain uncovered some suspicious pipe repairs that have been completed in the past. This line also showed a segment of pipe near the pump room that is split in half with gravel entering the pipe.	INCLUDED	INCLUDED
EXCAVATION 1	Saw cut pool deck outside of kiddie pool, where previous concrete patch is, to repair suspicious pipe repairs. Repair defective fittings and/or pipe. To include approximately 10 FEET of pipe. Concrete removal, excavation, pipe/fitting replacement, backfill, compaction, concrete replacement included.	\$4,500.00	\$4,500.00
EXCAVATION 2	Saw cut pool deck outside pump room where split pipe was encountered. Remove defective segment of pipe and replace. To include approximately 10 FEET of pipe. Concrete removal, excavation, pipe replacement, backfill, compaction, concrete replacement included.	\$4,500.00	\$4,500.00
RELINE	Per-foot cost of pressure-pipe reline. 3" diameter main drain line. Cure In Place Pipe (CIPP) epoxy reline of defective pipe. The epoxy used will be a 3-stage high-build epoxy formulated for pressure-pipe relining. The existing PVC will be cleaned and scoured (roughed up) to accept coating. The coating will then be applied in three layers to build up the required thickness. Once the final layer is cured, the system will be air tested once again to verify that the leak(s) have been sealed. 3" kiddie pool drain 80 FEET	\$250.00/FT	\$20,000.00

JOB Kiddie pool pipe repairs

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	After sawing pool deck, the 3" TEE that reduces lines down to 2" has been removed. We encountered a large hole on the underside of the 2" pipe. The 2" pipe was inspected and shows signs of early stress fracturing from freezing. Recommend CIPP epoxy reline of remaining 2" pipe around kiddie pool deck to ensure a leak-proof system.	INCLUDED	INCLUDED
RELINE	Per-foot cost of pressure-pipe reline. 2" diameter suction lines around kiddie pool. Cure In Place Pipe (CIPP) epoxy reline of defective pipe. The epoxy used will be a 3-stage high-build epoxy formulated for pressure-pipe relining. The existing PVC will be cleaned and scoured (roughed up) to accept coating. The coating will then be applied in three layers to build up the required thickness. Once the final layer is cured, the system will be air tested once again to verify that the leak(s) have been sealed. 2" kiddie pool return 40 FEET	\$250.00/FT	\$10,000.00

JOB Kiddie pool pipe repairs
** UPDATED 9/21/22 **

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	Inspected drain and return lines from pump room. Found lines to have hairline cracks/fractures that are having an unknown water loss. Will need to air test each line to determine where the actual loss is coming from.	INCLUDED	INCLUDED
EXCAVATION	Saw cut pool deck inside kiddie pool fence where pipe size reduction occurs. Apply air test in the following sequence: 1. Main drain to pump room 2. 3" reduction to pump room 3. 3" reduction through 2" lines Concrete removal, excavation, air test, fitting replacement, backfill, compaction, concrete replacement included.	\$4,500.00	\$4,500.00
EXCAVATION 2	Potential excavation in pump room where fittings were removed to inspect system. Fittings were originally buried in concrete and were not accessible during inspection, so they were cut out. Will determine the need for this once on site. Concrete removal, excavation, fitting replacement, backfill, compaction, concrete replacement included.	\$4,500.00	\$4,500.00
RELINE	Per-foot cost of pressure-pipe reline. Cure In Place Pipe (CIPP) epoxy reline of defective pipe. The epoxy used will be a 3-stage high-build epoxy formulated for pressure-pipe relining. The existing PVC will be cleaned and scoured (roughed up) to accept coating. The coating will then be applied in three layers to build up the required thickness. Once the final layer is cured, the system will be air tested once again to verify that the leak(s) have been sealed. Kiddie pool supply 80 FEET	\$250.00/FT	\$20,000.00
50% AT PROPOSAL ACCEPTANCE 50% AT PROJECT COMPLETION		SUBTOTAL	
		SALES TAX	
		TOTAL	\$29,000.00

JOB Main Pool Pipe Repairs (2)

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	<p>After the main pool was filled to test the repairs that were made, water once again appeared in our trench outside of the mechanical room. This told us that there was still a leak somewhere below the deck between the main pool drain and mechanical room. We were unable to apply an air test because of the configuration so we tested the integrity of the lines by flooding our trench. Now that the pool and lines were empty, this would allow us to observe water as it infiltrates into the pipes.</p> <p>Our conclusion is that the gate valves that control the overflow AND main drain flow to the mechanical room are leaking at their respective fittings.</p>	INCLUDED	INCLUDED
EXCAVATION	<p>Extend previous excavation outside of mechanical room to slab that encompasses the gate valves. Further saw cut concrete deck. Excavate approximately 8 FEET deep to expose gate valves for repair.</p> <p>Site will require hydro excavation due to the saturated nature of the soil.</p> <p>8 FEET</p>	\$1,200.00/VF	\$9,600.00
GATE VALVES	<p>Removal and replacement of the gate valves that are leaking. To include new valves, sleeves, and accessories.</p> <ol style="list-style-type: none"> 1. Overflow gate valve 2. Main drain gate valve <p>2 GATE VALVES</p>	\$2,200.00/EA	\$4,400.00
BACKFILL ALLOWANCE	<p>Backfill allowance to replace the saturated soil. Existing substrate is also riddled with concrete slag chunks from previous construction. The fill extracted is not able to be reused.</p> <p>12 TONS</p>	\$110.00/TN	\$1,320.00
50% AT PROPOSAL ACCEPTANCE 50% AT PROJECT COMPLETION		SUBTOTAL	
		SALES TAX	
		TOTAL	\$15,320.00

JOB Main Pool Pipe Repairs

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	<p>After the main pool was filled, the trench we were working in to make kiddie pool repairs filled with water. After pumping the trench down, we found that one of the 6" skimmer/suction lines was severely fractured which is what caused the trench to fill with water. We can only see the fittings that were near our trench as the 6" turns a few times to make it to the main drain connection and pump room:</p> <ol style="list-style-type: none"> 1. Straight pipe connection/transition to stainless gutter system 2. 90 fitting sending flow down 3. Tee fitting picking up flow from downstream gutter system 4. 90 fitting after TEE sending both lines down to where an assumed TEE is located that ties into main pool drain. <p>Recommend saw cutting deck to expose the fittings we can see. Additional (deeper) excavation will need to occur for us to fully see the last 90 and the pipe connected to it. From there we can test the pipe by plugging any remaining inlets in gutter system.</p>	INCLUDED	INCLUDED
EXCAVATION	<p>Saw cut pool deck adjacent to existing kiddie pool trench outside of mechanical room. Excavate down to useable PVC. CCTV inspection of remaining 6" PVC suction lines downstream of access pit. Apply air test in the following sequence:</p> <ol style="list-style-type: none"> 1. 6" from fractured fittings to TEE connection to main drain 2. 6" from fractured fittings to downstream suction inlets <p>Concrete removal, excavation, air test, backfill, compaction, concrete replacement included. 1 SITE – FLAT RATE</p>	\$4,500.00	\$4,500.00
PIPE REPAIRS	<p>Removal and replacement of the fractured fittings:</p> <ol style="list-style-type: none"> 1. 90 fitting sending flow down 2. TEE fitting picking up flow from downstream gutter system 3. 90 fitting after TEE <p>3 FITTINGS</p>	\$800.00/EA	\$2,400.00
CIPP POINT REPAIR	<p>Cure In Place Pipe (CIPP) point repair of PVC to SS gutter system. The fractured 6" PVC that was glued into a factory fitting on the SS gutter system does not have any useable pipe to take off with new pipe. We will need to inside-cut the existing PVC and then fusion-weld a new butt joint onto the SS gutter system. 1 POINT REPAIR – FLAT RATE</p>	\$6,000.00	\$6,000.00

JOB Sanitary Sewer Reline
Phase 2 – Elementary Classrooms

CATEGORY	DESCRIPTION	UNIT PRICE	LINE TOTAL
INSPECTION	Inspect lateral from classroom bathroom cleanouts. Inspect lateral from outside cleanout from previous project	INCLUDED	INCLUDED
SEGMENT EXCAVATION	Segment excavation outside of classrooms where sanitary sewer leaves the building. A previous repair along with three different existing pipe materials being present were found between the edge of the building and new cleanouts from our previous project. Recommend excavation of all pipes/all sizes outside of building between building and new cleanouts from our previous project. Includes excavation, pipe connections, backfill, compaction, and turf replacement. 1 SEGMENT EXCAVATION	\$14,500.00/EA	\$14,500.00
SEWER RELINE	Sewer reline through bathroom groups and terminating at excavation trench outside of building. Connect onto new PVC from outside excavation. Approximately 100 FEET	\$200.00/FT	\$20,000.00
STACK RELINE	During inspection, cleanouts inside the classroom bathrooms were opened. When the access covers were removed, a distinct sewer odor was observed within the wall cavity. Recommend reline of vent stacks from roof to cleanout access. Approximately 40 FEET (20 FEET X 2 STACKS)	\$200.00/FT	\$8,000.00
